

Map reference:
This map is based on the following data sources:
Topographic data: 1:50,000 scale maps from the 1960s and 1970s, digitized from the original maps.
Settlements: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Political boundaries: Data from the 1990s and 2000s, based on official maps and ground surveys.
Infrastructure: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Elevation: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Hydrology: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Land cover: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Wetlands: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.

Topographic Map Series

DARFUR

Western Sudan

Map Sheet: South-West

Topographic Base Map for Humanitarian Relief Operations

Scale: 1:250'000

Scale bar: 0 5 10 15 20 25 km

Projection: UTM Zone 34N
Datum: WGS 84
Units: Meter

Vertical Datum: Mean Sea Level

Legend

Settlements

- State capital
- Principal town
- Secondary town
- Administrative town
- Settlement (verified)
- Settlement (not verified)
- Built-up area
- Vulnerable area (camp, IDP...)

Political boundaries (not authoritative)

- National boundary
- State boundary (tentative)

Tribal area

- Nomadic or tribal area

Infrastructure features

- Airstrip (CDE)
- Main road (CDE)
- Gravel road (CDE)
- Track (CDE)
- Street (CDE)
- Railway (CDE) (non-operational)
- Main road (ES)
- Gravel road (ES)
- Street (ES)
- Dirt road or track (ES)

Geographical features

- Hills and mountains
- Dune

Topography

- Spot height
- Main contour (100 m interval)
- Intermediate contour (50 m interval)

Elevation classes

- < 600
- 601 - 800
- 801 - 1,000
- 1,001 - 1,200
- 1,201 - 1,400
- 1,401 - 1,600
- 1,601 - 1,800
- 1,801 - 2,000
- 2,001 - 2,400
- > 2,400

Land cover classes

- Forest
- Bushland
- Sparse vegetation
- Arable land
- Surface water

Wetlands

- Freshwater marshes and floodplains
- Pan, brackish and saline wetland
- Interspersed wetland and lake

Infrastructure point features

- Bridge
- Ford

Hydrological features

- Main river
- Seasonal river
- Occasional river
- Episodic river
- Dry river
- Canal
- Canal (unfinished)
- Lake or riverbed
- Pond / Pool
- Spring
- Waterhole
- Wadi
- Well

Map Sheet Overview

Map reference:
This map is based on the following data sources:
Topographic data: 1:50,000 scale maps from the 1960s and 1970s, digitized from the original maps.
Settlements: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Political boundaries: Data from the 1990s and 2000s, based on official maps and ground surveys.
Infrastructure: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Elevation: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Hydrology: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Land cover: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
Wetlands: Data from the 1990s and 2000s, based on satellite imagery and ground surveys.
